CAUSED A SENSATION

General Miles Stirs up Washington Over the Hawley Bill.

THREAT TO RESIGN.

He Says if the Bill Becomes Law Two Men Would Have Power to Promote Individuals Over Those Who Are Deserving.

Washington, March 21.—The threat of General Miles to resign if the bill introduced by Senator Hawley becomes law is the sensation at the capital. The portion of the bill which he objects to is as follows:

"That from and after the passage of this act the senior general officer of the army shall be assigned to command such portion of the army as the president may direct, or be detailed to do duty in the general staff corps. All duties prescribed by law for the commandant general of the army shall be performed by the chief of the general staff or other general officer designated by the secretary of war; provided that so long as the present lieutenant general of the army continues on the active list he shall be the chief of the general staff, and upon the separation from active service of said lieutenant general of the army, said office, except as herein provided, shall cease and determine."

General Miles said that if this provision should become a law it would have the effect of destroying the unity of the army, and he read numerous authorities, including Napoleon, Wellington, Washington, Cass and Grant to show the necessity of having one head to the army and of controlling authority. His own experience and observation, he said, had the effect of confirming these views, and he gave an illustration of its beneficial effect in time of emergency, instancing the beginning of the war with Spain. "I heard at midnight," he said, "that the Spanish fleet had been located definitely at Santiago, and I hastened to the home of Secretary Long, where the news was confirmed. Shafter was then at Tampa, and I sat down there, in the secretary's house, and wrote a dispatch directing him to start immediately for Santiago, with the result that the army was soon on its way to the point where its presence was needed. Suppose," he added, "exhibiting the message which he had sent to General Shafter, 'I had been compelled to get around to a dozen or more majors, as many colonels and any number of generals constituting a general staff.'"

Then he added that in all probability the senior general of the army would not, under the provision he had quoted, have been in position to do anything, and he called attention to the clause relieving him (the senior general) of command, and making it possible for any other officer to be appointed. He declared that under section 7 it would be competent to one day promote a captain to the position of a brigadier general and the next day make him chief of staff, practically placing a captain at the head of the army. Warning up somewhat, he asserted that the bill was calculated to accomplish no purpose except to allow the secretary of war and the adjutant general to promote the interests of their personal favorites.

In the course of his remarks General Miles told the committee in confidence that with the bill a law he could now name the men who would hold the places of honor provided under it, but the committee did not ask for the names.

May Retire Miles.

Washington, March 21.—The statements made Thursday by General Miles before the senate committee on military affairs, have been discussed by the president with a number of his callers. There is little doubt these statements will ultimately lead to General Miles' retirement by the president. In discussing the matter with some senators and representatives the president took the position that the lieutenant general of the army should entertain toward his superiors the same respect that he would expect and demand from his subordinates.

Conciliation Committee.

New York, March 21.—Senator Mark Hanna Thursday named the members of the committee on conciliation of the Civil Federation whose appointment was provided for at the last meeting of the executive committee, as follows: M. A. Hanna, chairman; Samuel Gompers, first vice chairman; Oscar S. Strauss, second vice chairman; Charles A. Moore, treasurer; Ralph M. Easley, secretary, and the nine men to be appointed by the chairman are: Archbishop Ireland, Bishop Potter, Frank P. MacVeagh, John Mitchell, Frank P. Sargent, James Duncan, J. Kruttschnitt, William H. Pfahler and Marcus M. Marks.

Woman Burned to Death.

Pickton, Tex., March 21.—Miss Eva Wyatt, who lived three miles east of

last place, was burned to death Wednesday. She was burning cornstalks when her clothing caught fire. She lived only a few hours. Her father, an aged man, was also badly burned on his hands and face.

Cashier Wrigley Dead.

Macon, Ga., March 21.—Capt. W. W. Wrigley for 37 years cashier of the First National Bank of Macon, Ga., died Thursday. He is believed to have been the oldest bank cashier in point of continuous service in the south.

SENSATION DEVELOPED.

A Shooting in Chicago May Result in Clearing up Postoffice Robbery.

Chicago, March 21.—As the result of what seemed a common shooting Thursday the police have become suddenly active and are bending their energies to connect Joseph Hopkins, the injured man with the \$76,000 postoffice robbery here of last summer. Joseph Hopkins was shot by "Dan" Ripley, a nephew of the former Chief of Police Kipley and himself a former detective, in flat occupied by Lillie Arlington, otherwise "Diamond Lill." Kipley, who, with the woman, is under arrest, claims self-defense. At St. Luke's hospital Hopkins was said to be in a critical condition.

Following the shooting it developed Hopkins had been leading a Jekyll-Hyde existence. He was identified, according to the police, as a bank robber and burglar of national reputation, but in Palos park, where he has a cosy little home in secluded spot, sheltered by trees, it was found he had the reputation as a dispenser of charities, giver to church and a man of standing in society. His wife's standing also was of the best, but when she was brought into police station policemen claim to have recognized her as the woman they have known as "Blonde Maris."

Kipley, while in his cell, told friends that Hopkins was the man for whom the police have been searching in connection with the post office robbery. What connection has not been made plain, but it is pointed out Hopkins is an electrician and that the holes drilled in bottoms of safes in the post office were by tools receiving power from some electrical device. A warrant has been secured and Postoffice Inspector Stuart will search the residence in Palos park.

GIRL WITH SIX MILLION.

Frank Conger Leaves an Adopted Child All of His Estate.

New York, March 21.—Frank Conger of Brooklyn, who died suddenly a few days ago in a Detroit hotel, bequeathed to his adopted daughter, Oressa Stewart Conger, whom he took from the arms of her dead mother a dozen years ago in a railroad wreck at Hamburg, N. Y., an estate of \$6,000,000.

The girl is now 14, and for 12 years has been thought by many to be the daughter of Mr. and Mrs. Conger.

The will has been filed with the surrogate of Ithica, N. Y. Mr. Conger left no natural heirs, and the document states that the girl, whose income will be \$350,000 a year, was the daughter of the Rev. E. E. Stewart and wife, of Rochester, N. Y., both of whom were killed on March 6, 1890, in the wreck on the Lake Shore road at Hamburg, N. Y.

Releases were obtained after this wreck from the grandparents of the child, and she was legally adopted.

FIFE IS ACQUITTED.

Jury Releases Him from the Charge of Murder in Missouri.

Savannah, Mo., March 21.—When court opened this morning the jury in the case of Stewart Fife, charged with the murder of Frank Richardson at the home of victim on Christmas eve, 1900, returned a verdict of acquittal.

When the verdict was announced there was a dramatic scene in the court room. Mrs. Fife, mother of accused, sprang forward and embraced her son, shouting for joy all the while. Mrs. Fife is of very nervous temperament and has suffered from hysteria at intervals ever since her son was arrested.

Mrs. Richardson, widow of the murdered man, was also in the court room and gave vent to her emotion.

Judge Grants a Divorce.

Dallas, March 21.—In passing on a divorce case Thursday Judge Thomas T. Holloway, who is presiding in the Fourteenth district court, made some remarks which will be gratifying to all who oppose wholesale and indiscriminate severance of marital relations. The testimony was to the effect that the husband had once struck the defendant with a towel, had accused her of flirting and used some profane language. Said the judge: "The court cannot conscientiously grant a divorce on the testimony heard. The relations of husband and wife are too sacred to be lightly severed. Besides, the laws of Texas do not allow couples to be divorced because of incompatibility of temper or the use of profane language. Thousands of couples live happily together, although they have occasional spats in which profanity is indulged in. I shall not grant divorces except for good and sufficient cause."

TWO NEGROES KILLED.

Three Others Badly Beaten by a Mob of
 Whites in Kentucky.

Paducah, Ky., March 21.—Great ex-
 citement prevails at Madrid Bend,
 Ky., 40 miles below Hickman, on the
 Tennessee line, where two negroes are
 said to have been killed by white men
 and three horribly and probably fa-
 tally beaten.

Elijah Drak, colored, it is claimed,
 was caught stealing chickens and was
 attacked by enraged whites, being
 driven into the Mississippi river and
 shot dead. The body floated to shore
 and the white men made another ne-
 gro tie a rope around the neck and pull
 him out to deep water. The white men
 then attacked four other negroes living
 near, who it is claimed, were impli-
 cated. The negroes showed fight and
 in the melee that followed Jim Stew-
 art, colored, was shot and instantly
 killed. The other three negroes were
 then almost beaten to death. There
 is much fear of further trouble and
 the law-abiding citizens have asked the
 governor to offer a reward for the ap-
 prehension and punishment of the
 murderers.

Jail Doors Save a Negro.

Longview, Tex., March 21.—Wednes-
 day night while the sheriff at Carthage
 was busy directing his officers in the
 chase after the negro who assaulted the
 white woman several miles from
 Carthage, an effort was made to get
 Lewis Solomon, a negro, out of the
 Panola county jail. The effort was un-
 successful, though the doors to the
 jail were badly battered. Solomon es-
 caped from the Longview jail the first
 of the year, at which time he was on
 his way to the penitentiary to serve a
 term of 20 years. He was recently re-
 captured at San Augustine.

Duel With a Woman.

Albion, Neb., March 21.—Mrs. Amella
 Patterson and George Thompson par-
 ticipated in a street duel here, in which
 Thompson was shot twice and James
 Forey, a bystander, received a bullet
 in the leg. Thompson also fired five
 shots at Mrs. Patterson, none of which
 took effect. Thompson's wounds are
 dangerous, but that of Forey is not
 serious. The shooting was the result
 of a divorce and damage suit, which
 has been occupying the court for some
 time, in which Thompson and Mrs.
 Patterson are the principals.

Huntington Estate Valuation.

New York, March 21.—The Collis P.
 Huntington estate, now being ap-
 praised by the state transfer tax ap-
 praisers, will amount to about \$29,-
 000,000. The transfer tax will be about
 \$4,000,000. This appraisal of the
 Huntington estate is less than the
 popular estimate of the amount of the
 estate at the time of Mr. Huntington's
 sudden death in August, 1900. It was
 rumored then that the estate was
 worth \$70,000,000.

FROM THE LADIES.

Major Mooring's recent announcement of his withdrawal from the race for mayor was a great surprise, and the ladies of Bryan, while extending their thanks for the many courtesies and the aid accorded them by this genial gentleman in all their undertakings towards the uplifting, beautifying and development of the town, do not hesitate to deplore the fact that he has seen fit to retire from the position which he has filled with such dignity and capability.

While there are doubtless others fully competent to fill the responsible office and to do the honors of "lord mayor of Bryan town" with befitting dignity and grace, still Major Mooring has been weighed in the balance and in no single instance has he been found wanting.

With all due deference to him upon whose shoulders Major Mooring's mantle may fall—and such are the mysteries of politics that this is as yet shrouded in mystery—we unhesitatingly proclaim, authorized by representative women of Bryan, that to receive their stamp of approval, the incoming mayor, if he has not already done so, should adopt in many issues the platform of his worthy predecessor, and whoever he may be—whether he espouses the cause of her friends and allows the town cow to make night hideous and day dangerous to women and children unless they go around armed cap-a-pie, or whether he advocates the precedent established by Major Mooring and curtails the liberty of Her Satanic Majesty, he must look to his laurels if he would keep his wreath fresh and green, and do all that within his power lies towards fostering and encouraging the efforts of the citizens and citizenesses in making of Bryan a city beautiful. For the watchword of the hour is progress, and all must march with the procession. Citizenship.

De Moss Lyric Bards.

The concert given by the De Moss Concert company at Shearn chapel last evening under the auspices of the Epworth league of Shearn church, was a musical treat. The program was a choice arrangement of musical selections rarely enjoyed by auditors at a concert given in church buildings.

The glockenspiel (stringless violin) solo was something that few, if any in the audience, had ever heard before and was interesting. Mrs. Lizzie De Moss Davis in "I Dreamed That I Dwelt," (Balle) on this wonderful instrument, charmed the house. The banjo band of five banjos was excellent. The Xylophone band in "Echoes from Multnomah," was another excellent and catching feature which held the hearers until the last note died away when the audience demonstrated its approval by prolonged applause. The Columbian hand bells and the rustic bells were also features that took. The feature of the evening's entertainment, however, was that of Mr. George De Moss rendering sweet music by performing on two cornets at once, playing the soprano and alto in Mendelssohn's "Adagio." The audience enjoyed this performance until he was compelled to repeat it. There was a good attendance. The proceeds are to be devoted to the payment for the repairs to Epworth chapel on San Felipe street, which was given the Epworth league by Shearn church on condition that the league will have it repaired and fixed up.—Houston Post.

DeMoss Concert company will appear in Bryan on Tuesday, March 25, under the auspices of the ladies of the Methodist church.

Hays county holds the banner for the swift administration of justice. Henry Wright, a negro, charged with attempted assault, committed the crime at San Marcus on the night of March 17. He was arrested on the 18, the grand jury convened and indicted him on the 19, and he was tried and sentenced to the penitentiary for 99 years on the 20. This sort of work on the part of the courts is the best argument against mob violence.

Mrs. J. J. Hopper of Oklahoma was here yesterday en route home after a visit to relatives at Madisonville. She was accompanied home by her daughters, Mrs. Robert Hibbets and Mrs. Miles Griffin.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even the greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get all of Dr. G. G. Green's reliable remedies at the Wilson-Jenkins Drug Co.'s store, Bryan. Get Green's Special Almanac.

SNOWBOUND PASSENGERS.

They Tell of Their Experience While Blocked in Montana.

St. Paul, Minn., March 21.—Three hundred Great Northern passengers from points west of the Eastern Montana line, 20 tons of mail matter, and car after car of baggage, all snow-bound in North Dakota since last Friday, have reached St. Paul, breaking the blockade.

Passengers who came through on it told stories of old-time frontier privations. They were on the first east-bound overland train, snowbound, and they were caught at Stanley, S. D., a station which consists of a sidetrack and cat yard.

From Thursday night until Monday morning, the passengers were hardly able to leave the train. A blizzard raged and no food was to be had except the limited quantity on the dining car. Sunday the coal in the day coaches gave out. Two brakemen took empty mail pouches, and going forward over the drifts, filled them from the tender of the engine. They returned with a supply of fuel after a hard fight against the storm, in which both were badly frostbitten. Monday the snowplows reached the train and it was sent to Williston, where local accommodations were available and food plenty.

Incoming passengers reported snow-drifts at Stanley 35 feet high. In other places the big rotary plows left veritable snow tunnels where the worst of the drifts had been.

MORE TRACKAGE.

Gould Line Buys Land on Which to Construct Tracks.

St. Louis, March 21.—The purchase of 11 acres land in south St. Louis has been made up by the management of Gould lines for terminal facilities. For a long time the terminal facilities of the Iron Mountain have been inadequate to demands of the volume of freight traffic handled over that line and congestion in yards along river front has been the rule throughout the year. To relieve this condition the management purchased the cotton compress property covering five city blocks and now the management has turned its attention to outer yard space and the south St. Louis land purchased. Consideration is said to have been about \$100,000. This extensive acreage be used for outer yard tracks.

Galveston Votes Sea Wall Bonds.

Galveston, Tex., March 21.—Official returns from all of the 15 voting precincts in the city give a total of 2650 votes in favor of the bond tax for the sea wall and only three votes against it. The required two-thirds of all tax-paying voters is 2146. Unofficial reports from twelve out of fourteen precincts in the county give 435 votes for and 18 against, making total heard from 3085 for and 21 against. The success of the seawall election was celebrated Thursday night by a general procession.

Forced to Close Mines.

Fort Worth, Tex., March 21.—The oil and jobbers' tariff, promulgated by the railroad commission, has resulted in closing down the work at the Texas Coal and Fuel company, on the line of the Weatherford, Mineral Wells and Northwestern, and the abandoning of freight trains by that company. This order throws 160 men in mines out of work. The road's forces have been reduced to a bare working number. If conditions continue the same road and mines will have to shut down.

Quarantine Proclamation.

Austin, March 21.—Gov. Sayers has issued the annual proclamation establishing a quarantine on the gulf coast and on the Rio Grande border points against all vessels, persons and things coming from places infected with yellow fever, smallpox, bubonic plague or cholera, and all places south of 25 degrees north latitude. This quarantine becomes effective on April 15, which is 15 days later than the date it has gone into effect in previous years.

Six Hundred Refrigerator Cars.

Fort Worth, Tex., March 21.—Samuel Robbins and George McRoberts of Chicago, directors of the Fort Worth Stockyards company, are here. Mr. Robbins is general manager of the Armour Car company and Mr. McRoberts is of the financial department of Armour & Co. Mr. Robbins said that 600 refrigerator cars are now being built to be used for the Fort Worth end of the company's business.

Hayti Situation Critical.

Port Au Prince, Hayti, March 21.—The political situation is critical. The authorities continue making arrests. The prisoners of importance are taken on board the Haytien warship Crete Periot. The authorities believe the disturbances in Hayti will be quelled before they reach the stage of being considered revolutionary.

Boy Convicted of Murder.

Sherman, Tex., March 21.—Willie Smith, aged 15, charged with the murder of a companion about the same age at a colored Christmas tree entertainment on the night of Dec. 24, was adjudged guilty here and his punishment assessed at five years in the state reformatory.

Failure at Hillsboro.

Hillsboro, Tex., March 21.—D. Brinn has filed a deed of trust here for the benefit of his creditors with J. A. McFadden, trustee. Mr. Brinn has been in business here for about 20 years and was considered one of the strongest merchants in the city.

Hail Storm at Giddings.

Giddings, Tex., March 21.—A distasteful hailstorm struck this place Thursday. Hail as large as a dollar fell for a period of ten minutes. It ruined all crops in this vicinity.

NOTHING FOR SCHLEY

House Committee Declares the Controversy at an End.

RESOLUTIONS KILLED

The Report Adopted Concurs in Conclusions of the President and Side-tracks All Bills and Resolutions on the Subject.

Washington, March 21.—The house committee on naval affairs by a vote of 7 to 4 adopted the resolution concurring in conclusions of President Roosevelt as to terminating the agitation of the Schley controversy, indefinitely postponing all bills and resolutions on the subject. The report of the subcommittee as adopted relates to all various resolutions which have been introduced.

The vote was on party lines, except that of Maryland, who voted with the Democrats against the adoption of the report.

Prior to the disposition of the subject Mr. Mudd moved a favorable report on his resolution, giving the thanks of congress to Admiral Schley and officers and men who served with him in the battle of Santiago. This was lost by a vote of 4 to 7.

One Objection Brings Others.

Washington, March 21.—When the house met this morning Mr. Mahon, chairman of the committee on claims, asked unanimous consent of the senate amendments to the omnibus claims bill be non-concurred in, and the bill be sent to conference. He thought the bill should take the regular course. Retaliating for this action Mr. Mahon objected to the request that senate amendment to legislative, executive and judicial appropriation bill be non-concurred in and that it be sent to conference.

Efforts Made to Increase Appropriations for the South Unavailing.

SNOWBOUND PASSENGERS.

They Tell of Their Experience While Blocked in Montana.

St. Paul, Minn., March 21.—Three hundred Great Northern passengers from points west of the Eastern Montana line, 20 tons of mail matter, and car after car of baggage, all snowbound in North Dakota since last Friday, have reached St. Paul, breaking the blockade.

Passengers who came through on it told stories of old-time frontier privations. They were on the first east-bound overland train, snowbound, and they were caught at Stanley, S. D., a station which consists of a sidetrack and cat yard.

From Thursday night until Monday morning, the passengers were hardly able to leave the train. A blizzard raged and no food was to be had except the limited quantity on the dining car. Sunday the coal in the day coaches gave out. Two brakemen took empty mail pouches, and going forward over the drifts, filled them from the tender of the engine. They returned with a supply of fuel after a hard fight against the storm, in which both were badly frostbitten. Monday the snowplows reached the train and it was sent to Williston, where local accommodations were available and food plenty.

Incoming passengers reported snowdrifts at Stanley 35 feet high. In other places the big rotary plows left veritable snow tunnels where the worst of the drifts had been.

MORE TRACKAGE.

Gould Line Buys Land on Which to Construct Tracks.

St. Louis, March 21.—The purchase of 11 acres land in south St. Louis has been made up by the management of Gould lines for terminal facilities. For a long time the terminal facilities of the Iron Mountain have been inadequate to demands of the volume of freight traffic handled over that line and congestion in yards along river front has been the rule throughout the year. To relieve this condition the management purchased the cotton compress property covering five city blocks and now the management has turned its attention to outer yard space and the south St. Louis land purchased. Consideration is said to have been about \$100,000. This extensive acreage be used for outer yard tracks.

Forced to Close Mines.
